

ASSISTANCE THIS WINTER FOR LOW-INCOME FAMILIES

- ❖ **Help paying your electric, gas or water bills**
- ❖ **Help in making your home more energy efficient or more water efficient, to lower your utility bills**
- ❖ **Help with making heating, water and sewer system repairs**
- ❖ **Help with making other types of home repairs**

To see whether you qualify for help:

1. *In the first column in each table, find the number of people living in your home.*
2. *Look across that row to see the maximum income shown. If that amount is higher than all money earned by everyone living in your home over the course of a year (gross income, before taxes – not your take-home pay), you may qualify for one or more of the types of help listed above.*

The lower your household income, the more types of assistance you may qualify for. Those with incomes less than the numbers in Box C below qualify for the most types of assistance.
